POLITICAL AFFAIRS WARMING UP, WITH RESULTS MERE GUESS

Campaign on Last Legs—Judicial Fight Attracting Attention

BIGHAM'S NAME ON BALLOT

New Castle Man Forced to Remain on Ticket as Congressional Candidate In Spite of Desires to Withdraw —Temple Here Friday.

Political affairs in the county are warming up with the campaign on the final lap. Still there is as much a guess as ever about the probable results in several offices, notably sheriff, treasurer, county commissioner and district attorney. For judge there is reason to believe that Norman Dunbar Charles Republican will beat out Robert W. Irwin, a Democrat. Voting will be on the the non partisan ticket, yet there will be lines drawn between parties.

Friday was the last day for candidates to withdraw their names. There were one or two names withdrawn but the political horizon remains unchanged and as puzzling as ever.

Former congressman Henry W. Temple was in Charleroi Friday for the first time in the campaign. His chief opponent, John A. Elliott of Beaver had been here previously. Both have their friends of course. The name of Frank C. Bigham of New Castle will go on the Republican ballot as a candidate for congress, in spite of his desires to withdraw. He failed to file his papers of withdrawal in time with the secretary of the commonwealth and now must remain in the fight. However, it is not expected that any complications will result for the fight will still be between Temple and Elliott. Both of these estimable gentlemen are pleading for a restoration of the Republican principals, each with equal right for they both wandered from the folds within the last three years to return this year. Carl Gibson an attorney of Monongahela will be the Democratic nominee for Congress and there will be a second fight at the fall elections for Gibson's strength must be admitted.

The treasurer fight will probably be fought out by O. Evans Mikesell, A. T. Craven and Charles A Bentley. The failure of C. E. Carothers of Washington, to file his petition as a candidate, even though he had announced, seemed to complicate matters somewhat and shrewd political guessers find themselves utterly unable to fathom the situation. The same state of affairs exists in a sense in the fight for district attorney and for sheriff. Who are the strongest candidates for these two offices are merely matters of conjecture.

In the county commissioner scrap interesting developments are promised. John O. Watson of North Charleroi is undoubtedly the leader along the river. Tom Luelien of Beallsville is another strong candidate, as also is Thomas Hill, a present incumbent. Much interest centers in the Democratic nomination for county commissioner. The river section has three candidates, A. P. Barnum of Allenport, now of the board of commissioners, Joe T. S. Cowan of Roscoe and Dr. T. M. Faudis of Charleroi.

Dr. A. V. Lewis has the nomination roped and tied for prothonotary, being the only Republican candidate. For register of wills, there are three candidates, Boyd C. Parshal, of Washington, Charles S. Ritchie and Rev. T. W. Young

Director of the poor candidates are conducting their fight with the same degree of thoroughness that other candidates for other offices are showing. H. D. Browneller of West Brownsville and Dr. R. W. Wolfe, present incumbents, George E. Adams, Albert R. Conger and W. W. Hawkins, are the candidates

CIDER VINEGAR UNSALEABLE ARTICLE MAINTAINS STATE

Forty-One Arrests Made During August By Dairy and Food Division

Forty-one arrests were made by the State Dairy and Food Division during August for the sale of cider vinegar that did not come up to the standard required by the pure apple juice law. Allegheny, Beaver, Blair, Clinton, Erie, Fayette, Lawrence, Luzerne, McKean, Philadelphia and Washington counties each contributed a number of offenders, selling in all ten varieties of vinegar.

Eighteen arrests for other food law violations were made in Cambria Blair, Allegheny, Erie, Dauphin, Huntingdon, Lancaster, Lackawanna, Philadelphia and Warren counties, for the sale of a canning compound consisting mainly of boric acid. The August revenue from fines collected, cold storage fees and oleo licenses amounted to $6,450.52, a total for the year to date of $258,224.47.

FINE PROGRAM FOR CONCERT

Servian Benefit Affair to be Given Sunday Afternoon At Majestic Theatre

LOCAL TALENT TO BE HEARD

Tomorrow afternoon at 2 o'clock at the Majestic theatre the Servian benefit concert and lecture will be given. The affair will be for the public and free, although an offering will be taken at the door. The affair will be for the fund being raised for the non-combatant Servians.

Following will be the program:

Piano duet, March from "Le Prophet," Myerbeer—Misses May Barth and Bethel Bowman.

Tenor solos, "Comfort Ye My People," and "Every Valley Shall be Exalted." Handel's Messiah—Warren Kinder.

Soprano solo, "Flower song" from Faust, Gounod—Adaline Fau.

Violin solos—"Legende," Wieniawski. "Berceuse" Neruda. "Scherzo Indien," Zitterbart and "Serenade," Arensky—Pierre De Bacher.

Address, "American Neutrality," Judge Robert W. Irwin.

WORK PROGRESSING ON NEW INNER LOCK

Gates Removed From Old Structure After New One is Proven Satisfactory—Closed to River Traffic Since July 31

The upper gates of the inner lock at Lock No. 4 were removed the second day of this month, in the work of rebuilding. The new outer lock is now working finely. It was used during all of August, when record shipments were made both up and down river.

The inner lock was closed to river traffic on July 31. After a few tests of the new outer lock to prove it, the inner lock was closed and work of reconstruction started.

The coffer dam has been built around the upper part of the inner lock. Work will progress rapidly from this time forth weather permitting.

STRANGE SHOOTING ON FRIDAY EVENING

Origin of Some of the Firing is Known, Having Been Incidental to "Snipe Hunting" Sport—Cause of Other Gunplay Unknown

With variations the antequated snipe hunting sport which had a long run at Charleroi and other nearby points a few years back, was restored Friday night. The restoration was accompanied by all the brilliancy of former occasions. The victim is said to have been one of the automobile race drivers now here. Shooting incidental to this sport was only part of the evening's excitement either for strange shooting took place along the railroad near Fifth street at about 10 o'clock Friday evening.

The usual sort of snipe hunting game was worked. The victim was taken a distance out of town by his friends. Suddenly shooting began and one of his companions cropped "Run," yelled somebody and the victim tore into town at a rate of speed that would have made any of the auto racers jealous. The victim almost ran into the arms of the police at Fifth street and this spurred him so that he said nothing.

What was the cause of the shooting near the railroad is not known. It is shrouded in mystery. Some were of the opinion that torpedoes had been fired but others who profess to have seen the flash of guns and to have known that no trains passed at this moment are wondering as to the cause.

THREE INJURED WHEN AUTO STRIKES BUGGY

Are Thrown From Vehicle—One Man Has Ankle Broken—Affair an Accident Which Takes Place on Bentleyville Road.

One man sustained a broken ankle, and two others were less seriously injured when they were thrown from a buggy which was hit by an automobile on the Bentleyville road Friday evening. The worst injured was a man by the name of Wilson, an electrician for the Pittsburg Coal company. Others hurt were William Hudspith and S. E. Dornan, employes of the West Penn Electric company at Charleroi.

All three were riding in a buggy on their way to Charleroi Friday evening early. Herbert Dreyer of Fayette City, with two girls from Charleroi in the car, was driving toward Bentleyville. He drove around one buggy in the road and his fender hit the buggy in which the three were riding. The horse became frightened and ran. The three were hurled to the ground. A Charleroi physician attended the injured men and brought them here in his auto.

ITALY THE LATEST TO ORDER ITS COKE HERE

Connellsville District Profits From Demand in Europe—Thousands of Tons to be Furnished Various Countries From This State.

Italy is the latest consumer of Connellsville coke, according to reports of export sales made by producers of this region. A cargo of 5,800 tons from the Connellsville Consolidated Coke company was shipped from the Baltimore docks last week, consigned to Italian ports. As in the case of former cargoes sold to foreign consumers, the transaction is made through jobbers so that the local producers do not know the real consignees. It is thought that the purchasers are private interests and not the Italian government.

It is stated that this is the first consignment of Connellsville coke to find its way to Italy. District selling agencies have shipped coal to Italy but no coke.

Advices are that contracts aggregating thousands of tons of coke for European use are in the air. Connellsville operators have been asked to bid on these contracts and a healthy portion of this foreign tonnage is practically assured.

Work on establishing a regular course of trade between this region and South America goes forward.

STATE DESIRES TO HAVE ALL FARMS PROPERLY CULTIVATED

Hence it is Gathering List of Abandoned Lands in the Commonwealth

WILL AID IN MAKING SALES

Department of Agriculture Will Look After Transfers, Says Secretary Critchfield—In Line for Suggestions for Raising Better Cattle.

In an effort to increase agricultural activity the state department of agriculture is gathering information regarding farms for sale in Pennsylvania, and will publish a bulletin giving data. A year ago a bulletin was issued giving information on abandoned or idle farms, and this work is to be extended by obtaining data on farms which can be bought.

Secretary of Agriculture N. B. Critchfield has asked the newspapers of the state to assist and in a circular letter says: "As a means of reducing the cost of living by increasing production this department is anxious to get farm lands into possession of actual farmers who will place lands now lying idle under proper cultivation and we are collecting preparatory to publishing in bulletin form a list of farms in Pennsylvania that are for sale.

Many such farms are in possession of men too old to cultivate them, while younger men, frequently of foreign nativity are anxious to buy such farms as they feel able to pay for."

This activity is in line with the statistical work and suggestions for increasing the raising of beef cattle that have been undertaken in the last few years by the department.

COAL SHIPMENT RECORDS ARE BROKEN AT BROWNSVILLE LOCK

No. 5 Has Particularly Busy Month —Some of the Coal Distributed Along Southern Gulf Points.

Records for coal shipments were broken at Lock No. 5, at Brownsville during August, according to the report of the lockmaster.

The shipments totalled 7,905,000 bushels, naturally enough much less than through Lock No. 4.

Some of the coal was bound for the Gulf of Mexico and was distributed along gulf ports.

Practically all of the coal works up the river above Brownsville are working to capacity. The W. Harry Brown plant is about the only one [illegible]

SPEED DEMONS READY FOR FRAY

Races at Belle Vernon on Monday Will Bring Together Noted Drivers

OFFICIALS ARE APPOINTED

Just as was once said by somebody that all roads lead to Rome so may it be said that all roads, rail, foot and vehicle will lead to the Belle Vernon race track Labor day where the biggest auto races of the year will be held.

Never has such a galaxy of noted speed demons entered their cars for a half-mile track meet anywhere outside of the largest cities in the east. Races and speed are promised of a kind seldom if ever surpased anywhere. Ten cars are entered and will run in all of the seven events in which they can qualify.

The races will start at 2:30 in the afternoon, late enough for everybody who attends any Labor day celebrations scheduled in the morning to get to the track in time to see all the races.

Several pictures of the racing cars displayed in the front window of the Hotel Wilbur are attracting much attention. One in particular shows the place where the Beaver Bullet driven by G. B. Gardner went through the fence last Friday. Gardner has his car in fine running order again and visited the track this afternoon for the first time since the accident.

The meet Monday will be conducted under the rule and with the sanction of the American Automobile association. The following men have been named as officials:

Judges—C. J. Mogul of Monessen; T. G. Brown of Belle Vernon and A. N. Shuster of Monessen

Timers—D. R. Hormell of Charleroi; R. A. Johnson of Bentleyville and Carl Miller of Donora.

Scorers—S. O. Fleming of Fayette City; W. H. Seiber of Donora and Dr. G. H. Murphy of Monessen

Referee—Kerfoot Daly of Charleroi

Starter—J. L. Cadwallader of Pittsburg.

HEAVY TRAFFIC PASSING OVER MONONGAHELA RAILWAY

Brownsville Feeling the Effect of Prosperity as Result of Starting Of Operations.

Heavy traffic is now passing through Brownsville on the Monongahela Railway that formerly went through Uniontown over the B. & O. Passenger trains on the new line will not be placed in service until later in the fall, according to General Manager G. B. Obey of Brownsville.

The freight traffic is bringing move crews and trains to the Southside yards at Brownsville. Both regular and extra men are kept busy.

DEMOCRACY IS DOOMED

Republicans and Progressives alike the country over are convinced that the people are opposed to the policies and principles of Democracy and that the Republicans will elect a President in 1916.

Herbert S. Hadley, representing the Progressives of the country, is certain of that important fact. Mr. Hadley was formerly governor of Missouri. He was an ardent supporter of Col. Theodore Roosevelt in the Republican convention in 1912 and was, aside from the Colonel himself the most forceful factor in the Progressive movement.

Gov. Hadley insists that the Democratic party, which came into power with fewer votes than twice had been cast for Bryan has not justified itself. The administration cannot point with pride to its achievements. Even President Wilson who claims to be a "forwardlooking man," is a theorist and a dreamer, says Gov. Hadley.

On the other hand and from an entirely different viewpoint Senator Boies Penrose contends that the American people will repudiate Democracy because its only argument in favor of continued control is the war in Europe. Such argument he declares is illogical and cannot prevail.

From the east and the west comes the same protest against Democracy it has outlived its usefulness the country over.

A DIFFERENT LITERACY TEST

The New York constitutional convention is now faced with the responsibility of adopting or defeating a proposed amendment providing that after Jan. 1, 1819, no one can vote who cannot read and write English. There is considerable opposition to it on the ground that it is the same kind of "literacy test" that has been beaten in the Congress of the United States.

But there is, maintains the Boston Post, as a matter of fact, a very wide difference beween the two. One would say to the intending immigrant: "You cannot enter this free land unless you can read and write in some language." The other says: "You cannot vote unless you can read our language."

The one debars utterly; the other encourages to education and a fuller comprehension of our institutions.

BE KIND TO GEORGIA

We shall have to be charitable to Georgia as we are to Haiti or the more primitive Balkan states. We shall have to recognize that here is a people suffering from [illegible] from a false reconstruction, from too sudden contest with a higher civilization. It has self-government though it is not yet fit for it. Only a small section of its people have risen to the normal civilization of the Western world. The rest are primitive declares the New Republic, uneducated, burdened with a citizenship which is more than they are capable of. The state needs schools, it needs protection against itself, it needs the guidance of comparatively more advanced people. The true comment on the Frank case is to be kind and forbearing and helpful to Georgia. There may come a time when it will be ready to act as self-respecting member of the American union.

It would do people good to see J. V. Thompson, the Uniontown coal financier recover his lost financial balance. When Thompson failed, many another went to the wall, investments included. This is the saddest part of all, for the easy trust fortune of some inexperienced ones led them into negotiations which proved entirely disastrous when the final pressure came causing undue suffering.

August was the biggest month in nearly two years for the coal trade through Locks No. 4. What a record and what it proves. There is an eager demand for coal now being felt, and it is not all through fear of a strike when the scale conference comes up for the settlement next spring. A considerable part of the demand comes from immediate need.

In improving Locks No. 4 and 3 the Monongahela river the government is doing a praiseworthy work. Bettering facilities for navigation will industrially improve the valley. Slackwater navigation is necessary, and the only trouble is that the cheap freight transportation it supplies is not better taken advantage of.

The "horny handed son of toil" is again the most popular man on earth. But being this annually is about the only fun he gets out of politics.

PICKED UP IN PASSING

There are some very funny things in a big store besides the things the girls say about the floorwalker or the fancies the ribbon counter boys have about the personalities of buyers and heads of departments.

For instance: The other day a small lad, with the unmistakable stamp of the country, was trailing his mother along through a big store. He was hanging back, and she was pulling. The boy never had been in a big store and the place was full of many wonders.

All of a sudden his pulling and lagging became a stubborn and pronounced utter stoppage.

"Come on, Willie," said the mother.

"Aw, Maw, wait," begged the boy.

"No," protested his mother. "What's the matter with you?"

"Look!" cried the boy. He was pointing to a young man leaving an employes time clock, which the young man had just punched.

"Wait, maw," continued Willie. "I want to see what he wins."

Not long ago a legal light in Washington had occasion to call upon a certain official of the Treasury Department whose softly modulated voice has gained him the designation of "the silent one."

The messenger to this official stopped the lawyer as he was going into the room, saying that his chief was "not in."

"Oh, yes, he is," said the lawyer, "he's in there!" and he pointed to the room, the inside of which was not visible from where he stood.

"But, sir—but,' began the puzzled and bewildered messenger, "how do you know that?"

"Because," chuckled the visitor, "it's so still in there!"

Electric Sparks

Say how far can y' run on a gallon o' gasoline?

When everybody is opposed to a man its a pretty fair sign he is some good.

H. L. SWICKEY ENTERS THE RACE FOR COUNCIL

To the Citizens of Charleroi:

I wish to announce that I am a candidate for council and I respectfully solicit your support. I have been a resident of Charleroi for twenty years and have always been an ardent supporter of the Republican party and principles. I have never been a candidate for office but I have always taken an active interest in everything that has been for the good of Charleroi and the surrounding community.

If successful in my efforts for this office I assure you that I will do my duty to the best of my ability.

Very truly yours,
H. L. Swickey.

Things to Worry About.

A bullfrog can't sing when he is under the water.

Our Daily Special.

You always have plenty of friends when you don't need them.

Luke McLuke Says:

We are always knocking the liar. Yet we all know that no man can be polite and tell the truth all the time.

A woman is quick to detect flattery when the flattery is being aimed at some other woman.

When a woman gets to a stage where she doesn't care how her hat looks and when she never worries because her nose is shiny she is entitled to a vote.

Every now and then you run into a pest who has nothing to say and who holds you up for an hour while he says it.

A boy always pities a pet dog that is kissed by women.

There is one good thing about every man. And that is his opinion of himself.

The reason why a handsome and shapely young girl marries a wealthy old man for love alone is because if you throw a baseball up in the air it will stay there.

A man doesn't often regret that he married his wife. But he often wonders why he married her.

A photographer can make another man's wife look pleasant and keep her mouth shut, but he can't make his own wife do it.

A man doesn't mind being called level headed, but don't try to call him flat headed.

Once in awhile you will hear a woman who has a fair to middling mustache bawling her husband out because he needs a shave.

The man who doesn't get into the argument is always suspected of knowing something about the question being argued.

There never was a married man who was not fond of his wife's husband.

BARNUM AND BAILEY CIRCUS WILL HAVE BIG PARADE IN CHARLEROI

There have been several cargoes shipped to the Argentine Republic and to Chile and other contracts will be closed when business communication is better established. A new market has been established for the low-grade coke, that is coke which is high in sulphur in the smelting furnaces of Chile. There the heat element is most important and the sulphur content does not seriously interfere with its availability, as it would in blast furnace use.

The Barnum and Bailey Greatest Show on Earth will present in Charleroi on Wednesday, September 22, the greatest street parade in the history of the American circus. It will be in no way similar to the parades of the past. It is three miles in length. It cost the management $1,000,000.

With the advantage of many years spent in touring all the civilized countries of the world, where this circus is as well known as in America, Barnum and Bailey's many agents have been constantly gathering the materials to be used in this year's street spectacle. Remote savage lands have been ransacked. Artists and designers from France and Italy have worked out the designs and ideas. Day and night for two years mechanics and property builders have toiled in foreign workshops, executing these ideas. There has been no regard to the cost.

All strange types of the human family are found in the procession, together with their characteristic costumes, weapons of war, vehicles, idols and music. Rich and fantastic wagons of state, gorgeous tabeleau, floats, palanquins, richly draped howdahs, rolling thrones, chariots of fire and fairy vans have been made of the most expensive woods, carved by hand labor and burnished with pure gold. The harness is silver mounted. The laces are from Ireland. The silks and satins are from China and Japan. The rugs and tapestry are from Persia and Turkey.

The effect of all this wealth is dazzling. The equipment is more gorgeous by far than anything of its nature exhibited in past seasons. The parade is three times longer than any other. It cost ten times as much money. It is a congress of nations, a horse fair, a musical convention, a zoological garden on wheels, a fairyland carnival and an academy of science, all rolled into one panorama.

A trip to the grounds is like a tour of the world, without the annoyance of seasickness. The great sea of canvas spreads out over fourteen acres of ground. In the stables are 700 of the finest horses that money can buy. In the menagerie are 1,200 animals. This single exhibit is worth more than the average circus. On the grounds is a dynamo plant furnishing power for twenty different shops and supplying current for 6,000 incandescent lamps, flaring arcs, beacons and search-lights.

The best talent of the world has been selected to give the performance under the main tent. There are 480 artists, gathered from every corner of the globe and they are presenting the greatest all-nation circus this world has ever seen.

DIXON INSTRUCTS ON MEDICAL INSPECTION

Commissioner of Health Samuel G. Dixon has sent word to boards of health in cities, boroughs and townships to commence enforcement of the act of 1915 for medical inspection of employes of hotels, restaurants, dining cars and public eating places of all kinds. Local health officers are required to make an inspection at least once a month. The law also requires proper cleansing of all dishes and eating and drinking utensils and prohibits the use of public towels or common drinking cups.

FAREWELL SURPRISE FOR MISS ALICE CALVERT

The Junior Bachelor Girls club held a farewell surprise party in honor to Miss Alice Calvert at her home on Fallowfield avenue Friday evening. There were about twelve couple present and an enjoyable evening was spent with music and dancing as the chief diversions. Miss Calvert will leave within the next few days for Pittsburg where she will enroll as a student at the Pennsylvania College for Women.

We are now Showing Ladies' and Misses Fall Suits in the military effect style made in all wool poplin in black, navy, Niger brown and green.

Rev. T. W. Young

Candidate for Register

The Rev. Thomas W. Young, of East Washington, is a candidate for Register of Wills.

The Rev. Mr. Young has had this in contemplation for some time. In seeking for the office he asks for only one term and promises a faithful administration of the affairs of the office.

The Rev. Mr. Young and family have been intensely loyal to the government and its flag. He and two brothers did faithful service during the Civil War, one brother being killed and another one wounded in the battle of Vicksburg. He himself served in the navy, in the North Atlantic squadron. His two sons served in the Spanish-American war, the older son being a member of Company H, Tenth regiment N. G. P., and was wounded in the battle of Malolas, on March 29, 1898, the younger son serving with Company F, Fifteenth regiment.

Has Never Held Office

None of his family has ever held any public office. Now in the evening of life, he asks the Republican voters to nominate him for the above mentioned office

Financial and other reasons will prevent him from making a personal canvass of the whole county, but he will try and see as many of the voters as possible.

The Rev. Mr. Young asks the support of the voters at the primaries September 21, 1915.

PITTSBURGH EXPOSITION OPENS WITH BRILLIANT DISPLAY AND GREAT CROWDS

Locomotive Which Pulled Abraham Lincoln's Train to Washington Is Among Relics at Point Show--Music Enchants

For the twenty-seventh time, in as many years, the historic Point district of Pittsburgh on Wednesday of this week was thrilled with the crowds of eager people from all portions of the Pittsburgh district who came to attend the formal opening of the annual Pittsburgh Exposition season of 1915. There were tens of thousands of lights glowing inside and outside the huge Exposition buildings and bright colored bunting festooned the huge structures while flags of many colors were floating in abundance. Music resounded from many points, exhibits that were astonishing as they were delightful were shown in scores of new places in the big buildings.

In the huge Exposition Music hall thousands of people sat absorbed and lulled by the beautiful work of the half hundred musical artists making up the superb symphony orchestra under the direction of Wassili Leps, who will continue with four concerts each day for the next week, while Miss Gertrude Hutcheson, a member of the Boston Grand Opera company, appears daily in solos adding brilliancy to the programs. Throughout the great buildings there are many free motion picture shows, mainly illustrating some great industry or some benificent work. There are booths showing model house buildings, gas mantel making, rug weaving and electrical appliances covering every known domestic utility operated with the magic current.

The amazing collection of historic methods of transportation of people offered by the Baltimore and Ohio railroad is one of the most extensive and valuable ever shown in public, consisting of carts of the period 200 B. C. and also from all portions of the Orient, while the earliest forms of coaches and locomotives ever used in America are shown in actual relics. This year the actual locomotive that carried Abraham Lincoln to Washington for his inauguration is in view, just as it appeared on that memorable occasion. The government of the United States is showing machines from its mint, making coins, but in this instance it is not actual money but medals as souvenirs of the Exposition that are being struck off.

To recount all that can be seen at the Point this year in Pittsburgh would take a large volume. To describe its value as a showing of modern progress and advancing civilization is to say only the words of the veteran managers and exhibitors who are present and who declare that the showing is the best ever made in Pittsburgh and one of the best in the country for a season of this character. In Mechanical hall there is the novel and thrilling spectacular production of the Siege of Antwerp, a vision in colors and light effects of the great war now going on in Europe. One sees shells flying and bursting over the beautiful Belgian city and hears the roar of the artillery and sees the destruction of enormous property values.

The most important element in this great Exposition season, for western Pennsylvania, eastern Ohio and West Virginia, is the fact that this year special excursions are running over all railroads to the Point show, and which will continue until Oct. 16. This will open the way for thousands to visit the Exposition and enjoy its scores of attractions who for some years have not been able to do so on an attractive basis. Second to this is the fact that the Pittsburgh Exposition continues to give to the public each year concerts from the best orchestras and concert bands in the entire world, concerts that, given separately, would cost two dollars, exclusive of anything else, and all for the single admission of 25 cents, which takes in all other attractions for a whole day's visit.

It is only because the Pittsburgh Exposition is the work of a society of public spirited citizens laboring without profit except the happiness and pleasure and information they can bring to the greatest number of people of the Pittsburgh district, that such a magnificent institution is possible. And the more that the public come to it the greater will the Exposition expand, the better will its season entertain, the more will it tell, year by year, the progress made by the Pittsburgh district in industry, art philanthropy, domestic sciences and in healthful entertainment of every kind. In the twenty-seven years the Exposition has been given, it has provided permanent buildings costing a million dollars, while each year at least $150,000 is expended to establish the Exposition season in form for the half million or more people, who come to its doors.

PRESERVED IN GLACIER

GRASSHOPPERS ENTOMBED IN MOUNTAINS OF MONTANA.

Story Which Has Long Been Considered to Be a Myth Found Correct, and Explanation Is Made by Scientists.

Grasshoppers on ice, in ice and of ice is the phenomenon to be found in Grasshopper glacier, once considered a myth, but the existence of which as one of the wonders of the West has been confirmed by geologists, natural forest officials and prospectors who have reached the upper headwaters of the East and West Rosebud rivers in the Beartooth mountains of Montana.

Investigation has shown that the "myth" of Grasshopper glacier is a fact. The grasshoppers, myriads of them, are frozen in a solid mass of ice. Many of the specimens are as perfect as if preserved in alcohol for exhibition.

In the opinion of scientists who recently made a first-hand study of the fabled glacier the insects were caught in a periodic southward flight and succumbed to the cold in their attempt to cross the mountain range. The huge ice mass, under whose crust the grasshoppers are buried, is virtually under the shadow of Granite peak, 12,842 feet high, the highest in Montana.

Only recently has its existence as a perpetual glacier been verified, though as long as 40 years ago it was traditionally known in early Montana mining camps and mountain towns. It was considered then merely a fanciful tale of pioneer prospectors and fur trappers who had penetrated to the upper reaches of this branch of the rugged Rockies.

J. C. Witham, deputy supervisor of the Beartooth national forest, one of the few men who have seen the Grasshopper glacier, brought back to civilization a small vial containing the nearly perfect remains of several grasshoppers found embalmed in the ice. These were forwarded to the Smithsonian institution, Washington, but unfortunately were badly broken in transit.

The Granites of Caribou county afford perhaps the most picturesque alpine scenery to be found in accessible parts of the United States. The Grasshopper glacier, which is one of a number discovered by the James P. Kimball survey, is thus described by Doctor Kimball:

"From observations made during the survey it was determined that grasshoppers brought to life on the prairie, when in periodic southerly flight in a direction toward the mountains, are compelled by successive stages to rise and surmount the massive barrier of the mountain range. On the summits they are combated by head winds and frequent violent high mountain air currents, the occasional terrific force of which to be thoroughly appreciated must be encountered on the summits of the range.

"Such portions of the grasshopper flights as are so unfortunate as to be compelled to settle on the glaciers in order to seek shelter from the opposing insurmountable winds become chilled by contact with the snow and ice surface of the glacier and are overcome, remaining unable to rise for newly attempted flight. The glacier then becomes their sepulcher."

Errors of History.

William Tell was a myth.

Coriolanus never allowed his mother to intercede for Rome.

The duke of Wellington never uttered the famous words, "Up guards, and at them!"

Alfred never allowed the cakes to burn nor ventured into the Danish camp disguised as a minstrel.

Fair Rosamund was not poisoned by Queen Eleanor, but died in the odor of sanctity in the convent of Godstow.

Charles Kingsley gave up his chair of modern history at Oxford because he said he considered history "largely a lie."

Chemists have proved that vinegar will not dissolve pearls or cleave rocks in spite of the fabled exploits of Cleopatra and Hannibal.

The siege of Troy is largely a myth, even according to Homer's own account. Helen must have been sixty years old when Paris fell in love with her.

The number of Xerxes' army has been grossly exaggerated and it was not stopped at Thermopylae by 300 Spartans, but by 7,000, or even, as some authors compute, 12,000.

Philip VI flying from the field of Crecy and challenged later before the gates of the castle of Elois, did not cry out: "It is the fortune of France." What he really said was, "Open, open; it is the unfortunate king of France."—St Louis Post-Dispatch.

Breast of Lamb.

About two and one-half pounds of breast of lamb, boiled tender in salted water; takes about two hours or a little longer to cook. Have what vegetables you like and thicken the broth for gravy. If there should be enough meat left chop and season and mold in a small, deep dish and put a weight on it. It will cut in nice thin slices for tea.

Strawberry Cream Pudding.

Buy a package of ice cream powder, mix one-half package with one heaping tablespoonful of cornstarch, and dissolve it in one pint of boiling milk letting it boil until sufficiently thick and stir constantly. Serve with whipped cream. It is a pretty pink pudding.

CAN'T LOSE HAIR

Twenty Years from Today a Bald-headed Man will be an Unusual Sight

One of the most prominent druggists of America made a statement a few weeks ago which has caused a great deal of discussion among scientists in the medical press.

He said: "If the new hair grower, Mildredina Hair Remedy, increases its sales as it has during the past year, it will be used by nearly every man, woman and child in America within eight years.

"When Mildredina Hair Remedy is used almost universally, dandruff will disappear and with its departure baldness, itching scalp, splitting hair and all scalp diseases will follow and "enty years from now a bald head will be a rarity." Sample sent for 10c to pay postage. Mail orders filled by Mildred Louise Co., Boston, Mass.

FROM BEAUTY NEWS

C. E. M.: Tho' your flesh worries you, do not take chances with violent methods and exaggerated dieting. You had better use this simple but effective flesh reducer, which you can make at home and about which hundreds have written so praise its rapid and effective action. Buy 1 oz. of tassco from druggist, dissolve in 1 1-2 pint hot water, allow to cool, strain and take a teas. ful before each meal. Continue the course until you reach normal wight.

BACK GIVES OUT

Plenty of Charleroi Readers Have This Experience.

You tax the kidneys—overwork them—

They can't keep up the continual strain.

The back may give out—it may ache and pain;

Urinary troubles may set in.

Don't wait longer—take Doan's Kidney Pills.

Charleroi people tell you how they act.

Mrs. B. Mahoney, 823 McKean avenue, Charleroi, says: "For a long time one of the family complained of pains across the back and any bending caused sharp twinges to dart through the body. Doan's Kidney Pills, procured at Piper Bros. Drug Store soon relieved the pain in the back and brought benefit in every way. I have also taken a few doses of Doan's Kidney Pills and they have helped me very much."

Price 50c, at all dealers. Don't simply ask for a kidney remedy—get Doan's Kidney Pills—the same that Mrs. Mahoney recommends. Foster-Milburn Co., Props., Buffalo, N. Y.

GAINS 40 POUNDS IN 40 DAYS
REMARKABLE RESULTS OF THE NEW TISSUE BUILDER TONOLINE TABLETS IN MANY CASES OF RUNDOWN MEN AND WOMEN

I FOUND IT YOURSELF BY BUYING a box of Tonoline Tablets NOW.

"By George, I never saw anything like the effects of that new treatment, Tonoline Tablets, for building up weight and lost nerve force. It acted more like a miracle than a medicine," said a well-known gentleman yesterday in speaking of the revolution that had taken place in his condition. "I began to think that there was nothing on earth that could make me fat. I tried tonics, digestives, heavy eating, diets, milk, beer and almost everything else you could think of, but nothing did me any good until I took Tonoline."

Any man or woman who is thin can recover normal weight by the best new treatment Tonoline Tablets.

"I have been thin for years and began to think I was natural for me to be that way. Finally I read about the remarkable processes brought about by use of Tonoline Tablets so I decided to try it myself. Well, when I look at myself in the mirror now, I think it is somebody else. I have put on just forty pounds during the last forty days, and never felt stronger."

A 15 Days' Treatment only costs $1 at Druggists or mailed by American Proprietary Co., Boston, Mass.

How We Won Out

WE SAW THE PRIZE. PRIZE AND GRABBED IT

Everybody in town knows that we are first in getting the best of everything. Last week we received a letter from Professor Munyon showing us a plan whereby he could rush his homoeopathetic remdias direct from his laboratory into our users without losing any of their curative properties. We saw the importance of this offer and immediately sent in our order for a full line of his remedies.

We want to say that if anyone bought the remedies and they were not perfectly satisfied with results, that we were to return the money. He says "I want you to specially push the Rheumatism Remedy in order that people may know. Find the hardest cases in town, those that Doctors have failed to cure, and get them to buy a 25c bottle, and if it doesn't relieve stiff and sore joints, pain in the back, side, or in any part of the body before one bottle has been used give the people back their money." This certainly must inspire confidence as everybody knows that Munyon's Homoeopathetic Remedies are absolutely harmless and millions of bottles are sold every year.

He also sent us a few hundred packages of his new Paw Paw Laxative Pills and wants us to give them away absolutely free. He says these Pills are the best stomach and liver regulator that the world has ever known. They don't scour, they don't gripe. They school the bowels to act naturally and take out of the system all the poisons and matter that irritates the nerves and causes biliousness, headache and general debility.

We are also to give away a four page sheet of music free to everybody who calls.
